NEW PRODUCT ANNOUNCEMENT- HEAT RECOVERY CORES

The RenewAire Core

- Positive Air Stream Separation
- Transfers both sensible and latent energy
- Certified 0% Cross Contamination
- Laminar Flow, Doesn't Clog
- Low Static Pressure - saves fan horsepower
- Suitable for bathroom exhaust
- 10 year core warranty

- Available as DOAS unit as shown
- As stand alone cores
- With mixed airstreams

We are proud to announce representation of RenewAire, Inc in the Florida West Coast Market

The RenewAire Difference

"All Ventilation Systems should be this Easy to Use"

- Easy to design and specify
 - Available in packages from 70 - 8000 CFM for both indoor and rooftop
 - Installation compatible with most HVAC designs including distributed and central-station approaches
 - Unlimited CFM capacities available using our patented modular applied systems

RenewAire is:

- Static-Plate Core Technology
- UL labeled and listed with full ARI certification and qualifies for rebates
- Maintenance performed by janitorial staff
- Available in both Fan Powered and Stand alone modules
- Available in indoor or outdoor configurations

Our graduate engineers and systems experts are available for a presentation. Please call or respond to this e-mail and we will set up an appointment
